

Gianluca Fino

Product Manager | AI Product Builder

Brussels, Belgium | Remote | gianlucafino.com | linkedin.com/in/gianluca-fino | fino.gianluca.fg@gmail.com | +320479392203

SUMMARY

Product Manager with 7+ years of experience building and scaling digital products used by 1,000+ users across 25–30 countries. AI Product Builder focused on turning customer problems into shipped, measurable products.

PROFESSIONAL EXPERIENCE

- Gianluca Fino — Product Portfolio, Independent AI Product Builder**

Portfolio: gianlucafino.com | GitHub: github.com/finogianluca

05/2026 – Present | Brussels, Belgium

 - Build and ship AI-enabled products using LLMs, AI agents, and user evidence — from problem framing through deployment and iteration.
 - Delivered three working products across financial reporting, Voice of Customer analysis, and roadmapping; now building a product analytics case study.
- Eurofins, Product Owner / Product Manager — Quotation Application**

09/2025 – 09/2026 | Brussels, Belgium

 - Owned strategy and roadmap for a quotation platform used by 1,000+ users across 30+ countries.
 - Led workflow improvements that reduced quote activity time by ~20%.
 - Introduced AI-assisted workflows, helping shorten delivery cycles by ~20–25%.
- Eurofins, Product Owner / Product Manager — Internal CRM Platform**

04/2024 – 08/2025 | Brussels, Belgium

 - Led product strategy and roadmap for an internal CRM platform, translating business needs into prioritized product improvements.
 - Drove roadmap and scope decisions with senior stakeholders through SteerCo, reducing unplanned scope changes by ~25%.
 - Led a distributed team of Business Analysts across 4 countries.
- Eurofins, Product Owner**

02/2022 – 03/2024 | Brussels, Belgium

 - Owned strategy and roadmap for a new in-house platform rolled out across 25+ countries.
 - Led discovery and prioritization, helping reduce rework by ~20%.
 - Cut rollout time from ~2 months to ~3 weeks by standardizing deployment.
- Eurofins, Business Analyst**

09/2020 – 01/2022 | Brussels, Belgium

 - Helped deliver the MVP and rollout to 100+ users, iterating based on user feedback.
 - Supported migration from legacy systems and translated business needs into requirements, contributing to ~20% fewer change requests.
- Alten, Business Analyst**

10/2019 – 06/2020 | Sophia Antipolis, France

Worked as a consultant for Amadeus IT Group.

 - Worked with developers, QA and project managers to deliver scalable solutions in an aviation technology environment.
 - Analyzed delivery outcomes and translated findings into recommendations for product and project teams.
- Corvallis SpA, Business Data Analyst**

09/2018 – 04/2019 | Turin, Italy

Worked as a consultant for Intesa Sanpaolo.

 - Managed datasets with millions of records and end-to-end data loading processes.
 - Bridged business and technical teams, supporting application development and new project proposals.

EDUCATION

- Master's degree in Mathematical Engineering, Politecnico of Turin**

2017 – 2019 | Turin, Italy
- Bachelor's degree in Mathematical Engineering, Politecnico of Turin**

2013 – 2017 | Turin, Italy
